

Odyssey Charter School

Kindergarten Report Card Information Sheet

The Odyssey Charter School Report Card is standard based and designed to communicate with parents and students the progress and learning being demonstrated in class for the current trimester. Students are evaluated on various categories within English-Language Arts, Math, Science, and History-Social Studies. For detailed information on specific standards, you are encouraged to look at PowerSchool. The report card also offers information on your student's socio-emotional wellbeing and work/study habits. The sections below present more detailed information about the various content areas evaluated on this report card.

Grading Scale

The grading scale used in this report card focuses on the students progress toward mastery of a standard for the trimester. The standards are based on a year-long goal, and expectations may change from one trimester to the next. The grading scale models the achievement levels found on the CA Assessment Student Progress and Performance (CAASPP) which are the statewide assessments students take in grades third through eighth. The definitions of each are:

- /-- Standard not evaluated- This standard has not been covered in the present term.
- 1-- Standard Not Met- The student has not met the achievement standard and needs **significant** improvement to demonstrate the knowledge and skills required at this level.
- 2-- Standard Nearly Met- The student has nearly met the achievement standard and needs **some** improvement to demonstrate the knowledge and skills required at this level.
- 3-- Standard Met- The student has met the achievement standard and demonstrates the knowledge and skills required at this level.
- 4-- Standard Exceeded- The student has exceeded the achievement standard and demonstrates **advanced** knowledge and skill toward mastery of standards at this level.

Fountas & Pinnell Reading Level is determined through the use of Fountas & Pinnell Reading Benchmark Assessment System. This reading assessment is administered to determine a student's 'just right' reading level. The reading benchmarks for the Kindergarten are:

		T1	T2	T3
Kindergarten	<i>1- Standard Not Met</i>		Below A	Below B
	<i>2- Standard Nearly Met</i>	Below A	A	B
	<i>3- Standard Met</i>	A	B	C
	<i>4- Standard Exceeded</i>	B+	C+	D+

Foundational Reading Standards are the foundational skills students need when learning to read. The listed standards are the focus items that have been selected for reporting on this report card.

Literature & Informational Reading Standards are the foundational skills students need when reading literature and/or informational texts. The listed standards are the focus items that have been selected for reporting on this report card.

Writing Standards encompass the focus standards that evaluate students' writing across the curriculum's three primary units of study covered during the year. Students will not complete all three units in one term, but rather across the whole year.

Language Standards provide information about the skills and knowledge that is developed as students acquire and master command of the English language.

Speaking & Listening Standards are the focus standards about the skills and knowledge essential in students' development of listening, speaking, discussion, and retelling abilities.

Mathematics Standards- The Mathematics standards found on this report card were originated from the CA Common Core State Standards. The standards listed on this report card are aligned with the Eureka Math curriculum used in our classrooms.

Science Standards- The Science standards found on this report card were originated from the Next Generation Science Standards. These standards are taught in a developmentally appropriate manner which allows students to experience science in an experiential way.

History & Social Science Standards- The History & Social Science standards were derived from the CA History Social Science Standards and Framework. These standards are taught and evaluated using a variety of approaches in a developmentally appropriate manner.

Student Skills & Habits- Across the grade levels, these Student Skills & Habits provide parents information about the important habits and skills students need to be successful as students.

Social Emotional Wellbeing- Student's social emotional wellbeing and development are derived from this component of our charter petition and highlight the skills students develop as students at Odyssey.

Odyssey Charter School

1st Grade Report Card Information Sheet

The Odyssey Charter School Report Card is standard based and designed to communicate with parents and students the progress and learning being demonstrated in class for the current trimester. Students are evaluated on various categories within English-Language Arts, Math, Science, and History-Social Studies. For detailed information on specific standards, you are encouraged to look at PowerSchool. The report card also offers information on your student's socio-emotional wellbeing and work/study habits. The sections below present more detailed information about the various content areas evaluated on this report card.

Grading Scale

The grading scale used in this report card focuses on the students progress toward mastery of a standard for the trimester. The standards are based on a year-long goal, and expectations may change from one trimester to the next. The grading scale models the achievement levels found on the CA Assessment Student Progress and Performance (CAASPP) which are the statewide assessments students take in grades third through eighth. The definitions of each are:

- /-- Standard not evaluated- This standard has not been covered in the present term.
- 1-- Standard Not Met- The student has not met the achievement standard and needs **significant** improvement to demonstrate the knowledge and skills required at this level.
- 2-- Standard Nearly Met- The student has nearly met the achievement standard and needs **some** improvement to demonstrate the knowledge and skills required at this level.
- 3-- Standard Met- The student has met the achievement standard and demonstrates the knowledge and skills required at this level.
- 4-- Standard Exceeded- The student has exceeded the achievement standard and demonstrates **advanced** knowledge and skill toward mastery of standards at this level.

Fountas & Pinnell Reading Level is determined through the use of Fountas & Pinnell Reading Benchmark Assessment System. This reading assessment is administered to determine a student's 'just right' reading level. The reading benchmarks for 1st grade are:

		T1	T2	T3
1st Grade	<i>1- Standard Not Met</i>	Below D	Below F	Below H
	<i>2- Standard Nearly Met</i>	D	F	H
	<i>3- Standard Met</i>	E	G	I/J
	<i>4- Standard Exceeded</i>	F +	H+	J +

Foundational Reading Standards are the foundational skills students need when learning to read. The listed standards are the focus items that have been selected for reporting on this report card.

Literature & Informational Reading Standards are the foundational skills students need when reading literature and/or informational texts. The listed standards are the focus items that have been selected for reporting on this report card.

Writing Standards encompass the focus standards that evaluate students' writing across the curriculum's three primary units of study covered during the year. Students will not complete all three units in one term, but rather across the whole year.

Language Standards provide information about the skills and knowledge that is developed as students acquire and master command of the English language.

Speaking & Listening Standards are the focus standards about the skills and knowledge essential in students' development of listening, speaking, discussion, and retelling abilities.

Mathematics Standards- The Mathematics standards found on this report card were originated from the CA Common Core State Standards. The standards listed on this report card are aligned with the Eureka Math curriculum used in our classrooms.

Science Standards- The Science standards found on this report card were originated from the Next Generation Science Standards. These standards are taught in a developmentally appropriate manner which allows students to experience science in an experiential way.

History & Social Science Standards- The History & Social Science standards were derived from the CA History Social Science Standards and Framework. These standards are taught and evaluated using a variety of approaches in a developmentally appropriate manner.

Student Skills & Habits- Across the grade levels, these Student Skills & Habits provide parents information about the important habits and skills students need to be successful as students.

Social Emotional Wellbeing- Student's social emotional wellbeing and development are derived from this component of our charter petition and highlight the skills students develop as students at Odyssey.

Odyssey Charter School

2nd Grade Report Card Information Sheet

The Odyssey Charter School Report Card is standard based and designed to communicate with parents and students the progress and learning being demonstrated in class for the current trimester. Students are evaluated on various categories within English-Language Arts, Math, Science, and History-Social Studies. For detailed information on specific standards, you are encouraged to look at PowerSchool. The report card also offers information on your student's socio-emotional wellbeing and work/study habits. The sections below present more detailed information about the various content areas evaluated on this report card.

Grading Scale

The grading scale used in this report card focuses on the students progress toward mastery of a standard for the trimester. The standards are based on a year-long goal, and expectations may change from one trimester to the next. The grading scale models the achievement levels found on the CA Assessment Student Progress and Performance (CAASPP) which are the statewide assessments students take in grades third through eighth. The definitions of each are:

- /-- Standard not evaluated- This standard has not been covered in the present term.
- 1-- Standard Not Met- The student has not met the achievement standard and needs **significant** improvement to demonstrate the knowledge and skills required at this level.
- 2-- Standard Nearly Met- The student has nearly met the achievement standard and needs **some** improvement to demonstrate the knowledge and skills required at this level.
- 3-- Standard Met- The student has met the achievement standard and demonstrates the knowledge and skills required at this level.
- 4-- Standard Exceeded- The student has exceeded the achievement standard and demonstrates **advanced** knowledge and skill toward mastery of standards at this level.

Fountas & Pinnell Reading Level is determined through the use of Fountas & Pinnell Reading Benchmark Assessment System. This reading assessment is administered to determine a student's 'just right' reading level. The reading benchmarks for 2nd grade are:

		T1	T2	T3
2nd Grade	<i>1- Standard Not Met</i>	Below I	Below J	Below K
	<i>2- Standard Nearly Met</i>	I	J	K
	<i>3- Standard Met</i>	J	K	L/M
	<i>4- Standard Exceeded</i>	K +	L+	M+

Foundational Reading Standards are the foundational skills students need when learning to read. The listed standards are the focus items that have been selected for reporting on this report card.

Literature & Informational Reading Standards are the foundational skills students need when reading literature and/or informational texts. The listed standards are the focus items that have been selected for reporting on this report card.

Writing Standards encompass the focus standards that evaluate students' writing across the curriculum's three primary units of study covered during the year. Students will not complete all three units in one term, but rather across the whole year.

Language Standards provide information about the skills and knowledge that is developed as students acquire and master command of the English language.

Speaking & Listening Standards are the focus standards about the skills and knowledge essential in students' development of listening, speaking, discussion, and retelling abilities.

Mathematics Standards- The Mathematics standards found on this report card were originated from the CA Common Core State Standards. The standards listed on this report card are aligned with the Eureka Math curriculum used in our classrooms.

Science Standards- The Science standards found on this report card were originated from the Next Generation Science Standards. These standards are taught in a developmentally appropriate manner which allows students to experience science in an experiential way.

History & Social Science Standards- The History & Social Science standards were derived from the CA History Social Science Standards and Framework. These standards are taught and evaluated using a variety of approaches in a developmentally appropriate manner.

Student Skills & Habits- Across the grade levels, these Student Skills & Habits provide parents information about the important habits and skills students need to be successful as students.

Social Emotional Wellbeing- Student's social emotional wellbeing and development are derived from this component of our charter petition and highlight the skills students develop as students at Odyssey.

Odyssey Charter School

3rd Grade Report Card Information Sheet

The Odyssey Charter School Report Card is standard based and designed to communicate with parents and students the progress and learning being demonstrated in class for the current trimester. Students are evaluated on various categories within English-Language Arts, Math, Science, and History-Social Studies. For detailed information on specific standards, you are encouraged to look at PowerSchool. The report card also offers information on your child's socio-emotional wellbeing and work/study habits. The sections below present more detailed information about the various content areas evaluated on this report card.

Grading Scale

The grading scale used in this report card focuses on the students progress toward mastery of a standard for the trimester. The standards are based on a year-long goal, and expectations may change from one trimester to the next. The grading scale models the achievement levels found on the CA Assessment Student Progress and Performance (CAASPP) which are the statewide assessments students take in grades third through eighth. The definitions of each are:

- /-- Standard not evaluated- This standard has not been covered in the present term.
- 1-- Standard Not Met- The student has not met the achievement standard and needs **significant** improvement to demonstrate the knowledge and skills required at this level.
- 2-- Standard Nearly Met- The student has nearly met the achievement standard and needs **some** improvement to demonstrate the knowledge and skills required at this level.
- 3-- Standard Met- The student has met the achievement standard and demonstrates the knowledge and skills required at this level.
- 4-- Standard Exceeded- The student has exceeded the achievement standard and demonstrates **advanced** knowledge and skill toward mastery of standards at this level.

Fountas & Pinnell Reading Level is determined through the use of Fountas & Pinnell Reading Benchmark Assessment System. This reading assessment is administered to determine a student's 'just right' reading level. The reading benchmarks for 3rd grade are:

		T1	T2	T3
3rd Grade	<i>1- Standard Not Met</i>	Below L	Below M	Below N
	<i>2- Standard Nearly Met</i>	L	M	N
	<i>3- Standard Met</i>	M	N	O/P
	<i>4- Standard Exceeded</i>	N +	O+	P+

English Language Arts & Literacy Standards consists of four areas- reading, writing, speaking & listening, and language.

Mathematics Standards The Mathematics standards found on this report card originated from the CA Common Core State Standards. The standards are aligned with the Eureka Math curriculum.

- **Operations & Algebraic Thinking**- Student will represent and solve problems involving multiplication and division; understand properties of multiplication and the relationship between multiplication and division; multiply and divide within 100; solve problems involving the four operations, and identify and explain patterns in arithmetic
- **Numbers & Operations: Base Ten**- Student will use place value understanding and properties of operations to perform multi-digit arithmetic
- **Numbers & Operations: Fractions**- Student will develop understanding of fractions as numbers
- **Measurement & Data**- Student will solve problems involving measurement and estimation of intervals of time, liquid volumes, and masses of objects; represent and interpret data; understand concepts of area and relate area to multiplication and to addition; recognize perimeter as an attribute of plane figures and distinguish between linear and area measures
- **Geometry**- Student will reason with shapes and their attributes

Science Standards- The Science standards found on this report card broadly capture the critical skills and abilities students need in order to demonstrate mastery of the specific grade level standards. These standards originated from the Next Generation Science Standards and are taught in a developmentally appropriate manner which allows students to experience science in an experiential way.

History & Social Science Standards- The History & Social Science standards inform of students' learning along main standards of the particular grade level. These standards were derived from the CA History Social Science Standards and Framework. These standards are taught and evaluated using a variety of approaches in a developmentally appropriate manner.

Student Skills & Habits- Across the grade levels, these Student Skills & Habits have been selected by teachers to provide parents information about the important habits and skills students need to be successful as students.

Social Emotional Wellbeing- Student's social emotional wellbeing and development are derived from this component of our charter petition and highlight the skills students develop as students at Odyssey.

Odyssey Charter School

4th Grade Report Card Information Sheet

The Odyssey Charter School Report Card is standard based and designed to communicate with parents and students the progress and learning being demonstrated in class for the current trimester. Students are evaluated on various categories within English-Language Arts, Math, Science, and History-Social Studies. For detailed information on specific standards, you are encouraged to look at PowerSchool. The report card also offers information on your child’s socio-emotional wellbeing and work/study habits. The sections below present more detailed information about the various content areas evaluated on this report card.

Grading Scale

The grading scale used in this report card focuses on the students progress toward mastery of a standard for the trimester. The standards are based on a year-long goal, and expectations may change from one trimester to the next. The grading scale models the achievement levels found on the CA Assessment Student Progress and Performance (CAASPP) which are the statewide assessments students take in grades third through eighth. The definitions of each are:

- /-- Standard not evaluated- This standard has not been covered in the present term.
- 1-- Standard Not Met- The student has not met the achievement standard and needs **significant** improvement to demonstrate the knowledge and skills required at this level.
- 2-- Standard Nearly Met- The student has nearly met the achievement standard and needs **some** improvement to demonstrate the knowledge and skills required at this level.
- 3-- Standard Met- The student has met the achievement standard and demonstrates the knowledge and skills required at this level.
- 4-- Standard Exceeded- The student has exceeded the achievement standard and demonstrates **advanced** knowledge and skill toward mastery of standards at this level.

Fountas & Pinnell Reading Level is determined through the use of Fountas & Pinnell Reading Benchmark Assessment System. This reading assessment is administered to determine a student’s ‘just right’ reading level. The reading benchmarks for 4th grade are:

		T1	T2	T3
4th Grade	1- Standard Not Met	Below O	Below P	Below Q
	2- Standard Nearly Met	O	P	Q
	3- Standard Met	P	Q	R/S
	4- Standard Exceeded	Q +	R+	S+

English Language Arts & Literacy Standards consists of four areas- reading, writing, speaking & listening, and language.

Mathematics Standards The Mathematics standards found on this report card originated from the CA Common Core State Standards. The standards are aligned with the Eureka Math curriculum.

- **Operations & Algebraic Thinking-** Student will use the four operations with whole numbers to solve problems gain familiarity with factors and multiples; generate and analyze patterns
- **Numbers & Operations: Base Ten-** Student will generalize place value understanding for multi-digit whole numbers use place value understanding and properties of operations to perform multi-digit arithmetic.
- **Numbers & Operations: Fractions-** Student will extend understanding of fraction equivalence and ordering; build fractions from unit fractions by applying and extending previous understandings of operations on whole numbers; understand decimal notation for fractions, and compare decimal fractions.
- **Measurement & Data-** Student will solve problems involving measurement and conversion of measurements from a larger unit to a smaller unit; represent and interpret data; understand concepts of angle and measure angles.
- **Geometry-** Student will draw and identify lines and angles, and classify shapes by properties of their lines and angles.

Science Standards- The Science standards found on this report card broadly capture the critical skills and abilities students need in order to demonstrate mastery of the specific grade level standards. These standards originated from the Next Generation Science Standards and are taught in a developmentally appropriate manner which allows students to experience science in an experiential way.

History & Social Science Standards- The History & Social Science standards inform of students’ learning along main standards of the particular grade level. These standards were derived from the CA History Social Science Standards and Framework. These standards are taught and evaluated using a variety of approaches in a developmentally appropriate manner.

Student Skills & Habits- Across the grade levels, these Student Skills & Habits have been selected by teachers to provide parents information about the important habits and skills students need to be successful as students.

Social Emotional Wellbeing- Student’s social emotional wellbeing and development are derived from this component of our charter petition and highlight the skills students develop as students at Odyssey.

Odyssey Charter School

5th Grade Report Card Information Sheet

The Odyssey Charter School Report Card is standard based and designed to communicate with parents and students the progress and learning being demonstrated in class for the current trimester. Students are evaluated on various categories within English-Language Arts, Math, Science, and History-Social Studies. For detailed information on specific standards, you are encouraged to look at PowerSchool. The report card also offers information on your child's socio-emotional wellbeing and work/study habits. The sections below present more detailed information about the various content areas evaluated on this report card.

Grading Scale

The grading scale used in this report card focuses on the students progress toward mastery of a standard for the trimester. The standards are based on a year-long goal, and expectations may change from one trimester to the next. The grading scale models the achievement levels found on the CA Assessment Student Progress and Performance (CAASPP) which are the statewide assessments students take in grades third through eighth. The definitions of each are:

- /-- Standard not evaluated- This standard has not been covered in the present term.
- 1-- Standard Not Met- The student has not met the achievement standard and needs **significant** improvement to demonstrate the knowledge and skills required at this level.
- 2-- Standard Nearly Met- The student has nearly met the achievement standard and needs **some** improvement to demonstrate the knowledge and skills required at this level.
- 3-- Standard Met- The student has met the achievement standard and demonstrates the knowledge and skills required at this level.
- 4-- Standard Exceeded- The student has exceeded the achievement standard and demonstrates **advanced** knowledge and skill toward mastery of standards at this level.

English Language Arts & Literacy Standards consists of four areas- reading, writing, speaking & listening, and language.

Mathematics Standards The Mathematics standards found on this report card originated from the CA Common Core State Standards. The standards are aligned with the Eureka Math curriculum.

- **Operations & Algebraic Thinking**- Student will write and interpret numerical expressions; analyze patterns and relationships.
- **Numbers & Operations: Base Ten**- Student will understand the place value system; perform operations with multi-digit whole numbers and with decimals to hundredths
- **Numbers & Operations: Fractions**- Student will use equivalent fractions as a strategy to add and subtract fractions; apply and extend previous understandings of multiplication and division to multiply and divide fractions
- **Measurement & Data**- Student will convert like measurement units within a given measurement system; represent and interpret data; understand concepts of volume and relate volume to multiplication and to addition.
- **Geometry**- Student will graph points on the coordinate plane to solve real-world and mathematical problems; classify two-dimensional figures into categories based on their properties.

Science Standards- The Science standards found on this report card broadly capture the critical skills and abilities students need in order to demonstrate mastery of the specific grade level standards. These standards originated from the Next Generation Science Standards and are taught in a developmentally appropriate manner which allows students to experience science in an experiential way.

History & Social Science Standards- The History & Social Science standards inform of students' learning along main standards of the particular grade level. These standards were derived from the CA History Social Science Standards and Framework. These standards are taught and evaluated using a variety of approaches in a developmentally appropriate manner.

Student Skills & Habits- Across the grade levels, these Student Skills & Habits have been selected by teachers to provide parents information about the important habits and skills students need to be successful as students.

Social Emotional Wellbeing- Student's social emotional wellbeing and development are derived from this component of our charter petition and highlight the skills students develop as students at Odyssey.

Odyssey Charter School

6th Grade Report Card Information Sheet

The Odyssey Charter School Report Card is standard based and designed to communicate with parents and students the progress and learning being demonstrated in class for the current trimester. Students are evaluated on various categories within English-Language Arts, Math, Science, and History-Social Studies. For detailed information on specific standards, you are encouraged to look at PowerSchool. The report card also offers information on your child's socio-emotional wellbeing and work/study habits. The sections below present more detailed information about the various content areas evaluated on this report card.

Grading Scale

The grading scale used in this report card focuses on the students progress toward mastery of a standard for the trimester. The standards are based on a year-long goal, and expectations may change from one trimester to the next. The grading scale models the achievement levels found on the CA Assessment Student Progress and Performance (CAASPP) which are the statewide assessments students take in grades third through eighth. The definitions of each are:

- /-- Standard not evaluated- This standard has not been covered in the present term.
- 1-- Standard Not Met- The student has not met the achievement standard and needs **significant** improvement to demonstrate the knowledge and skills required at this level.
- 2-- Standard Nearly Met- The student has nearly met the achievement standard and needs **some** improvement to demonstrate the knowledge and skills required at this level.
- 3-- Standard Met- The student has met the achievement standard and demonstrates the knowledge and skills required at this level.
- 4-- Standard Exceeded- The student has exceeded the achievement standard and demonstrates **advanced** knowledge and skill toward mastery of standards at this level.

English Language Arts & Literacy Standards consists of four areas- reading, writing, speaking & listening, and language.

Mathematics Standards The Mathematics standards found on this report card originated from the CA Common Core State Standards. The standards are aligned with the Eureka Math curriculum.

- Ratios and Proportional Relationships- Students will understand ratio concepts and use ratio reasoning to solve problems.
- The Number System- Students will apply and extend previous understandings of multiplication and division to divide fractions by fractions; multiply and divide multi-digit numbers and find common factors and multiples; apply and extend previous understandings of numbers to the system of rational numbers.
- Expressions and Equations- Students will apply and extend previous understandings of arithmetic to algebraic expressions; reason about and solve one-variable equations and inequalities; represent and analyze quantitative relationships between dependent and independent variables.
- Geometry- Students will solve real-world and mathematical problems involving area, surface area, and volume.
- Statistics and Probability- Students will develop understanding of statistical variability; summarize and describe distributions.

Science Standards- The Science standards found on this report card broadly capture the critical skills and abilities students need in order to demonstrate mastery of the specific grade level standards. These standards originated from the Next Generation Science Standards and are taught in a developmentally appropriate manner which allows students to experience science in an experiential way.

History & Social Science Standards- The History & Social Science standards inform of students' learning along main standards of the particular grade level. These standards were derived from the CA History Social Science Standards and Framework. These standards are taught and evaluated using a variety of approaches in a developmentally appropriate manner.

Student Skills & Habits- Across the grade levels, these Student Skills & Habits have been selected by teachers to provide parents information about the important habits and skills students need to be successful as students.

Social Emotional Wellbeing- Student's social emotional wellbeing and development are derived from this component of our charter petition and highlight the skills students develop as students at Odyssey.

Odyssey Charter School

7th Grade Report Card Information Sheet

The Odyssey Charter School Report Card is standard based and designed to communicate with parents and students the progress and learning being demonstrated in class for the current trimester. Students are evaluated on various categories within English-Language Arts, Math, Science, and History-Social Studies. For detailed information on specific standards, you are encouraged to look at PowerSchool. The report card also offers information on your student's socio-emotional wellbeing and work/study habits. The sections below present more detailed information about the various content areas evaluated on this report card.

Grading Scale

The grading scale used in this report card focuses on the students progress toward mastery of a standard for the trimester. The standards are based on a year-long goal, and expectations may change from one trimester to the next. The grading scale models the achievement levels found on the CA Assessment Student Progress and Performance (CAASPP) which are the statewide assessments students take in grades third through eighth. The definitions of each are:

/- Standard not evaluated	This standard has not been covered in the present term.
0- No evidence	Student has failed to submit any assignments
1- Standard Not Met	The student has not met the achievement standard and needs significant improvement to demonstrate the knowledge and skills required at this grade level
1.5- Limited Development	The student has demonstrated limited abilities in the knowledge and skills required at this grade level
2- Standard Nearly Met	The student has nearly met the achievement standard and needs some improvement to demonstrate the knowledge and skills required at this grade level
2.5- Approaching Standard	The student is making progress towards the achievement standard and needs minimal improvement to demonstrate the knowledge and skills required at this grade level.
3- Standard Met	The student has met the achievement standard and demonstrates the knowledge and skills required at this grade level.
3.5- Standard Nearly Exceeded	The student has nearly exceeded the achievement standard of knowledge and skill toward mastery of standards at this grade level
4- Standard Exceeded	The student has exceeded the achievement standard and demonstrates advanced knowledge and skill toward mastery of standards at this grade level.

English Language Arts & Literacy Standards consists of four areas- reading, writing, speaking & listening, and language..

Mathematics Standards The Mathematics standards found on this report card originated from the CA Common Core State Standards. The standards are aligned with the Eureka Math curriculum.

- Ratios and Proportional Relationships- Students will analyze proportional relationships and use them to solve real-world and mathematical problems.
- The Number System- Students will apply and extend previous understandings of operations with fractions to add, subtract, multiply, and divide rational numbers.
- Expressions and Equations- Students will use properties of operations to generate equivalent expressions solve real-life and mathematical problems using numerical and algebraic expressions and equations.
- Geometry- Students will draw, construct and describe geometrical figures and describe the relationships between them; solve real-life and mathematical problems involving angle measure, area, surface area, and volume.
- Statistics and Probability- Students will use random sampling to draw inferences about a population; draw informal comparative inferences about two populations; investigate chance processes and develop, use, and evaluate probability models.

Science Standards- The Science standards found on this report card broadly capture the critical skills and abilities students need in order to demonstrate mastery of the specific grade level standards. These standards originated from the Next Generation Science Standards and are taught in a developmentally appropriate manner which allows students to experience science in an experiential way.

History & Social Science Standards- The History & Social Science standards inform of students' learning along main standards of the particular grade level. These standards were derived from the CA History Social Science Standards and Framework. These standards are taught and evaluated using a variety of approaches in a developmentally appropriate manner.

Student Skills & Habits- Across the grade levels, these Student Skills & Habits have been selected by teachers to provide parents information about the important habits and skills students need to be successful as students.

Social Emotional Wellbeing- Student's social emotional wellbeing and development are derived from this component of our charter petition and highlight the skills students develop as students at Odyssey.

Odyssey Charter School

8th Grade Report Card Information Sheet

The Odyssey Charter School Report Card is standard based and designed to communicate with parents and students the progress and learning being demonstrated in class for the current trimester. Students are evaluated on various categories within English-Language Arts, Math, Science, and History-Social Studies. For detailed information on specific standards, you are encouraged to look at PowerSchool. The report card also offers information on your child's socio-emotional wellbeing and work/study habits. The sections below present more detailed information about the various content areas evaluated on this report card.

Grading Scale

The grading scale used in this report card focuses on the students progress toward mastery of a standard for the trimester. The standards are based on a year-long goal, and expectations may change from one trimester to the next. The grading scale models the achievement levels found on the CA Assessment Student Progress and Performance (CAASPP) which are the statewide assessments students take in grades third through eighth. The definitions of each are:

/- Standard not evaluated	This standard has not been covered in the present term.
0- No evidence	Student has failed to submit any assignments
1- Standard Not Met	The student has not met the achievement standard and needs significant improvement to demonstrate the knowledge and skills required at this grade level
1.5- Limited Development	The student has demonstrated limited abilities in the knowledge and skills required at this grade level
2- Standard Nearly Met	The student has nearly met the achievement standard and needs some improvement to demonstrate the knowledge and skills required at this grade level
2.5- Approaching Standard	The student is making progress towards the achievement standard and needs minimal improvement to demonstrate the knowledge and skills required at this grade level.
3- Standard Met	The student has met the achievement standard and demonstrates the knowledge and skills required at this grade level.
3.5- Standard Nearly Exceeded	The student has nearly exceeded the achievement standard of knowledge and skill toward mastery of standards at this grade level
4- Standard Exceeded	The student has exceeded the achievement standard and demonstrates advanced knowledge and skill toward mastery of standards at this grade level.

English Language Arts & Literacy Standards consists of four areas- reading, writing, speaking & listening, and language.

Mathematics Standards The Mathematics standards found on this report card originated from the CA Common Core State Standards. The standards are aligned with the Eureka Math curriculum.

- Ratios and Proportional Relationships- Students will know that there are numbers that are not rational, and approximate them by rational numbers.
- Expressions and Equations- Students will work with radicals and integer exponents; understand the connections between proportional relationships, lines, and linear equations; analyze and solve linear equations and pairs of simultaneous linear equations.
- Functions- Students will define, evaluate, and compare functions; use functions to model relationships between quantities.
- Geometry- Students will understand congruence and similarity using physical models, transparencies, or geometry software; understand and apply the Pythagorean Theorem; solve real-world and mathematical problems involving volume of cylinders, cones and spheres.
- Statistics and Probability- Students will investigate patterns of association in bivariate data.

Science Standards- The Science standards found on this report card broadly capture the critical skills and abilities students need in order to demonstrate mastery of the specific grade level standards. These standards originated from the Next Generation Science Standards and are taught in a developmentally appropriate manner which allows students to experience science in an experiential way.

History & Social Science Standards- The History & Social Science standards inform of students' learning along main standards of the particular grade level. These standards were derived from the CA History Social Science Standards and Framework. These standards are taught and evaluated using a variety of approaches in a developmentally appropriate manner.

Student Skills & Habits- Across the grade levels, these Student Skills & Habits have been selected by teachers to provide parents information about the important habits and skills students need to be successful as students.

Social Emotional Wellbeing- Student's social emotional wellbeing and development are derived from this component of our charter petition and highlight the skills students develop as students at Odyssey.
